Composition per 100 g (laboratory analysis)

Parameter	Per 100 g	Per 250 g portion
Protein	18.60 g	46.5 g
Fat	3.20 g	8.0 g
Moisture	75.97 g	189.9 g
Ash	1.60 g	4.0 g

Tested for: Murrel (Maral). Laboratory: Nagpur Veterinary College, Department of Animal Nutrition. Report No. 152, dated 15 September 2026. Calcium and phosphorus were not included in this analysis. Results describe the tested sample only. They are not a guarantee for every batch, and are not a residue, microbiological or regulatory analysis.
Catfish, sold on the same product page, has not been analysed.

Quality practices and documents

Feed is lab-tested. Fish are sent for laboratory analysis every quarter. Water quality is tested regularly. Feeding and stock are recorded daily for each cage. Our **Farm Compliance File** (procedures, test register and record sheets) and available test reports can be shared on request.

Certification status: ISO 9001, ISO 14001 and HACCP are applied for and in progress. They have not been issued yet. This sheet is a product description, not a certificate. Green Mart is converting to a Private Limited company; this is in process.

Supply and samples

Local supply: Nagpur and surrounding region. For overseas buyers, samples are arranged through a licensed exporter. Tell us your country, product, monthly quantity and preferred presentation, and we will confirm availability and specifications.
